Moon's Faces and Phases

by Sallie Wolf

New moon,
Crescent moon—
Hiding in the clouds moon.

Quarter moon,
Waxing moon—
Slowly growing fatter moon.

Full moon,
Pull moon—
Ruler of the tides moon.

Quarter moon,
Waning moon—
Disappearing soon moon.

Old moon,
Tired moon
Fading in the sky moon.

New moon,
Ancient moon—
Constantly renewing moon.
