	<p>The Coin Counting Book by Rozanne Lanczak Williams</p> <p>Grades 1-3. Simple rhymes and large, clear photographs instruct children in coin denominations, grouping, and counting. Coins are arranged in sets with visual equations illustrating their mathematical equivalents. A valuable introductory lesson on money. -Ilene Abramson, Los Angeles Public Library</p>
	<p>Money Math (Math Everywhere!) by Katie Marsico</p> <p>Grades 3-4. Math is everywhere when it comes to money! See how dollars and cents add up inside this book—and how we need math to finish the tally! You'll need your math smarts to help figure out how much you can earn from chores or jobs, the best way to balance what you spend and save, how to calculate interest, and more. It all adds up to a lot of fun!--Jacket flap</p>
	<p>Reese's Pieces Count By Fives by Jerry Pallotta</p> <p>Grades Pk-3. This book teaches the concept of counting by fives through a hands-on approach using candy. Counting from 5-100, cars move the candies by fives until they move all one hundred. The number symbol and number name appear on each page. A fun, instructive, and tasty approach to introduce or review counting by fives!--Jacket flap</p>
	<p>Math for Minecrafters: Adventures in Multiplication & Division by Amanda Brack</p> <p>Grades 3-4. This kid-friendly workbook features video game characters and concepts to reinforce the development of math skills. Colorfully-illustrated puzzles and high-interest word problems use beloved items from the Overworld to encourage math practice. --Jacket flap</p>
	<p>Are You a Math Genius? The Inventor's Book of Calculation Games - For Brilliant Thinkers by Sarah Janisse Bro</p> <p>Grades 4-12. This 180 page book can cover an entire school year by completing one page per day using creative games, logic problems and art. Excellent for all students, especially creative learners, struggling, and reluctant learners.--Jacket flap</p>
