

## Activities for "Clocks and Calendars"

### Make a FOX CLOCK!

Based on the popular video song, "What Does the Fox Say?", use the fox clock to introduce time related math vocabulary, telling time on an analog clock, and the purposes of the hour hand and minute hand.

**GAME:** "What Does the Clock Say?" This group game will help students identify the time in analog, digital, and word form. For this and other tick-tock fun, visit: <https://bit.ly/2N6zVzk>

**VIDEO:** Show your class this music video, "What does the CLOCK say? Find it here: <https://bit.ly/2GZ8nbx>

### Make a Hula Hoop Clock

Taking learning outdoors! All you need are hula hoops, chalk, a few sticks, and you are ready to go! <https://bit.ly/300CHtH>

### The Human Clock Game

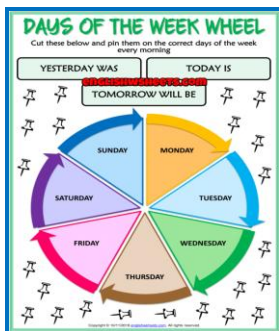

Students will enjoy learning time telling concepts with this fun activity as they race to find their place on the clock. Instructions for the game and related activities can be found at <https://bit.ly/2CAzGlm>

### Dressing for the Seasons Activity

Students can demonstrate their knowledge of the seasons and weather by dressing Froggy in the appropriate attire. In addition to worksheet options, this free download includes Froggy cards, plus weather, season, and month cards.

Get the download and game instructions at <https://bit.ly/2Z2Lxd5>

### Days-of-the-Week Wheel

Here's a fun way to learn the days of the week by using this downloadable poster (or make your own using round pizza cardboard). Each morning have students take turns pinning the "Yesterday, Today and Tomorrow" tabs on the correct days of the week.
