

ACTIVITIES for "The Elevator"

Easy-to-Make Moving Toy Elevator

With just a shoe-box sized cardboard box and a smaller rectangular-shaped box, create a captivating toy elevator for hours of fun! Encourage children to place small toys or figures in the basket and pull them up to the top door.

Elevator Games: Numbers & Colors!

These engaging elevator button games are enjoyable ways to learn numerals, colors, and the concepts of up and down. Place your button pad at the top and bottom of the stairs. Children can be the elevator operator when they choose a number or a color of the day, and push the corresponding buttons. Source:
