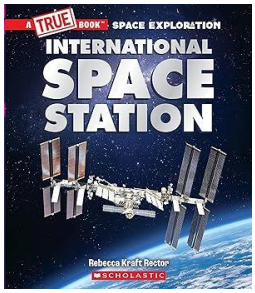
Recommended Reading for "The International Space Station"

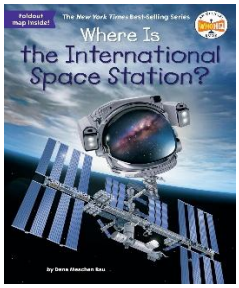
The International Space Station by Lori Dittmer

Ages 6-9. Introduce young stargazers to marvels beyond Earth and the tools scientists use to study them, including rovers and telescopes. With the help of vibrant images and factual, elementary-level STEM text, this nonfiction astronomy title for children examines the history of the ISS, its construction, how it operates, and what it is used for. It also explores what life on board is like for the crew and spotlights common types of ISS experiments. —*Amazon*



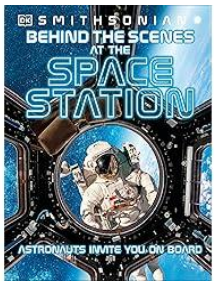
The International Space Station (A True Book) by Rebecca Kraft Rector

Ages 8-12. Introduce young stargazers to the wonders beyond Earth—and the amazing tools scientists use to explore them, from powerful telescopes to space rovers. This fascinating book is filled with amazing facts about the International Space Station, including that it has orbited Earth more than 120,000 times and served as a home and workplace for more than 200 astronauts. A captivating introduction to life and science beyond our planet! —*Amazon*



Where Is the International Space Station? By Dana Meachen

Ages 8-12. Readers will learn how the International Space Station has helped scientists from all over the world research outer space, natural disasters, the human body, and more since its construction in 1998—featuring a full-color foldout map. The contributions to STEM and space exploration aboard the ISS are far-reaching and ongoing for space programs around the world. —*Amazon*



Behind the Scenes at the Space Stations: Your All-Access Guide to the World's Most Amazing Space Station by DK

Ages 8-12. Learn what the astronauts do once they make it to the space station, from experiments to repairs and so much more! Brimming with astonishing visuals, step-by-step explanations of everyday space work in action, and job profiles of the adventurous people who make it happen, *Behind the Scenes at the Space Station* is the perfect way to experience life in space. —*Amazon*

Space Station Academy Series (8 Books Set) by Sally Spray

Ages 8-12. The Space Station Academy Series is a set of eight adventure-based books that take young readers on fun, educational journeys to each planet and celestial body in our solar system. Each title is a self-contained story featuring the Space Station Academy students and their teacher, Dr. Bott, blending humor, bright illustrations, and interactive activities with real science facts. —*Amazon*
