Gangly O'Dangly

by Heidi Bee Roemer

Gangly O'Dangly is frightfully shy.
He's a rattle-bone, all alone, kind of a guy.

The first time I saw him, I hollered, "By golly!"
He models the ***bones*** that are inside my body.

Alas, there's no ***brain*** inside his poor brainium;
Nary a hair grows upon his smooth ***cranium.***

He has two-hundred-six bones, including his ***tibia.***
He hasn't a tongue, so he can't tell a fib-ia.

Gangly is thin. His meals weren't numerous.
Count Gangly's ***ribs.*** Can you tickle his ***humerus***?
